Mr. Gary O. Bartlett
Executive Secretary-Director
North Carolina State Board of Elections
P.O. Box 2169
Raleigh, North Carolina 27602-2169

October 14, 1997

Dear Mr. Bartlett:

This refers to the amendments to Section IX of the "Policies and Procedures for the Implementation of the National Voter Registration Act of 1993 ["NVRA"] and Article 7A, Chapter 163 of the North Carolina General Statutes" regarding the processing of provisional ballots in the State of North Carolina, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act, 42 U.S.C. 1973c. We received your submission on August 14, 1997.

The Attorney General does not interpose any objection to the specified changes. However, we note that Section 5 expressly provides that the failure of the Attorney General to object does not bar subsequent litigation to enjoin the enforcement of the changes. See the Procedures for the Administration of Section 5 (28 C.F.R. 51.41). In this regard, the granting of Section 5 preclearance does not preclude the Attorney General or private individuals from filing a civil action pursuant to Section 11 of the NVRA, 42 U.S.C. 1973gg-9.

Sincerely,

Isabelle Katz Pinzler
Acting Assistant Attorney General
Civil Rights Division

A Notice of Rule-making Proceedings is a statement of subject matter of the agency's proposed rule making. The agency must publish a notice of the subject matter for public comment at least 60 days prior to publishing the proposed text of a rule. Publication of a temporary rule serves as a Notice of Rule-making Proceedings and can be found in the Register under the section heading of Temporary Rules. A Rule-making Agenda published by an agency serves as Rule-making Proceedings and can be found in the Register under the section heading of Rule-making Agendas. Statutory reference: G.S. 150B-21.2.

**TITLE 10 - HEALTH AND HUMAN
SERVICES**

CHAPTER 30 - FOOD ASSISTANCE

CHAPTER 41 - CHILDREN'S SERVICES

**CHAPTER 42 - INDIVIDUAL AND
FAMILY SUPPORT**

Notice of Rule-making Proceedings is hereby given by the Social Services Commission in accordance with G.S. 150B-21.2. The agency shall subsequently publish in the Register the text of the rule(s) it proposes to adopt as a result of this notice of rule-making proceedings and any comments received on this notice.

Citation to Existing Rules Affected by this Rule-Making:
10 NCAC 30 .0207; 10 NCAC 41E and 41G; 10 NCAC 42R .0201. Other rules may be proposed in the course of the rule-making process.

Authority for the rule-making:
10 NCAC 30 .0207 - G.S. 108A-51; 143B-153
10 NCAC 41E and 41G - G.S. 131D-10.5
10 NCAC 42R .0201 - S.L. 1997 - 443

Statement of the Subject Matter:
10 NCAC 30 .0207 - Combined Food Stamp benefit change.
10 NCAC 41E and 41G - Licensing of Group Homes for Children, Minimum Standards for Child Caring Institutions.
10 NCAC 42R .0201 - Increase current maximum rates for adult day care, adult day care health services and transportation when purchased through the State Adult Day Care Fund.

Reason for Proposed Action:
10 NCAC 30 .0207 - P.L. 104-193 provided state with several options regarding the issuance of food stamp benefits to applicants who apply after the 15th day of the month. Currently, states may issue the prorated first months' benefit and the next full month benefit in one allotment or issue each allotment as a separate issuance. The proposed temporary amendment to 10 NCAC 30 .0207 will allow applicants to receive each food stamp allotment as a separate issuance and simplify the delivery of food stamp benefits to eligible families. Families will receive a separate allotment for each month of eligibility thereby enabling them to plan and budget their food purchases with the knowledge of their future

receipt of food stamp benefits.

10 NCAC 41E and 41G - Historically there have been two different sets of licensure standards for residential child care facilities -- one set for group homes and the other for child care institutions. Knowledge about residential child care programs has increased in the past twenty years and the proposed amendments will bring the licensure rules in line with the knowledge. The proposed changes will combine the two sets into one set of Core Standards. Thereby, improving the quality of licensure requirements and providing enhanced protection for children placed in residential child care facilities.

10 NCAC 42R .0201 - The cost of providing adult day care and adult day health has increased since the last increase to the maximum rates (July 1994), therefore, the maximum rates must be increased to come closer to the provider's actual costs. The maximum rate for transportation has not been increased since the early 1980's, which has caused providers to operate at a loss when transportation is provided to participants. A separate rate is being established for adult day health services in recognition of the higher costs of providing this level of care and in order to match the rate being paid by the Division of Medical Assistance for the same service. The North Carolina General Assembly expanded the amount of SSBG/State funds available to the State Adult Day Care fund, allowing for the rate increases without reducing the numbers of clients to be served.

Comment Procedures: Anyone wishing to comment should contact Sharnese Ransome, APA Coordinator, Social Services Commission, NC Division of Social Services, 325 N. Salisbury St., Raleigh, NC 27603, phone 919/733-3055.

- (a) Hospitals desiring to be considered for initial trauma

center designation shall complete and submit an original and five copies of a bound RFP to the Office of Emergency Medical Services at least 30 days prior to the State Emergency Medical Services Advisory Council meeting at which the application is to be considered. A schedule of meetings for the State Emergency Medical Services Advisory Council may be obtained from the Office of Emergency Medical Services at PO Box 29530, Raleigh, North Carolina 27626-0530. The RFP shall include, at a minimum, the following:

- (1) information which supports compliance with the criteria contained in "North Carolina's Trauma Center Criteria", dated November 1, 1996 which is incorporated by reference;
- (2) a justification by Level I or II applicants of the need for the trauma center that includes, at a minimum

TITLE 15A - DEPARTMENT OF ENVIRONMENT AN NATURAL RESOURCES

CHAPTER 6 - SOIL AND WATER CONSERVATION COMMISSION

SUBCHAPTER 6E - AGRICULTURE COST SHARE PROGRAM FOR NONPOINT SOURCE POLLUTION CONTROL

SECTION .0100 - AGRICULTURE COST SHARE PROGRAM

.0106 TECHNICAL ASSISTANCE FUNDS

(a) The funds available for technical assistance shall be allocated by the commission based on the recommendation of the division and the needs as expressed by the district and needs to accelerate the installation of BMP's in the respective district. Each district may use these monies to fund new positions or to accelerate present technical assistance positions. Districts must provide an itemized budget to the division in order to qualify for technical assistance funds. Matching funds for district technical assistance shall be approved by the commission prior to any expenditure of funds. Budget revisions submitted by the districts can be approved by the NPS Section based on Paragraph (b) of this Rule. N. C. Agriculture Cost Share technical assistance funds may be used for each FTE technical position with the district matching 50 percent of the total. Priorities for funding positions are assigned based on the rating system as follows:

- (1) Position presently funded by program technical assistance funds 50 pts.
- (2) Position needed in district not presently receiving technical assistance monies
 - (A) Position needed to qualify for cost share allocation 15 pts.
 - (B) Position needed to further accelerate

- program 10 pts.
- (3) Position needed to further accelerate program in district presently receiving technical assistance monies for another position 5 pts.
- (4) Position needed to further accelerate treatment of identified critical nonpoint source pollution problem (i.e., intense animal waste, PNA drainage area, Nutrient Sensitive Watershed, etc.) 15 pts.
- (b) Technical assistance funds may be used for salary, benefits, social security, field equipment and supplies, office rent, office equipment and supplies, postage, telephone service, travel and mileage. A maximum of two thousand five hundred dollars (\$2,500) per year for each FTE technical position is allowed for mileage charges.
- (c) Minimum requirements for technical positions shall be one of the following:
 - (1) associated degree in engineering, agriculture, forestry or related field, or
 - (2) high school diploma with two years experience in the fields listed in Rule .0106 (c)(1), of this Subchapter, or
 - (3) appropriate experience in the fields listed in Rule .0106 (c)(1) of this Subchapter.
- (d) Cost shared positions must be used to accelerate the program activities in the district. A district technician cost shared with program funds may work on other activities as delegated by the field office supervisor but the total hours charged to the program by field office personnel must equal or exceed those hours funded through the program. Also, these hours must be in addition to those hours normally spent in BMP planning and installation by district personnel.
- (e) District technicians may be jointly funded by more than one district to accelerate the program in each participating district. Each district must be eligible for cost sharing in the program. Requests for funding (salary, FICA, insurance, etc.) of a shared position must be presented to the division by all concerned districts and the division will cost share to the billing district at a 50-50 rate based on the portion of the FTE provided each respective district. A shared position must be officially housed in one specific district and cost share for support items (office rent, telephone, etc.) will be paid to one district only.
- (f) Funds, if available, will be allocated to each participating district to provide for administrative costs under this program. These funds shall be used for clerical assistance and other related program administrative costs and will be matched with in-kind funds of an equal amount from the district.

.0107 COST SHARE AGREEMENT

(a) The landowner shall be required to sign the agreement for all practices other than conservation tillage and land application of animal wastes. An applicant who is not the landowner may submit a long term written lease or other legal document, indicating control over the land in lieu of the landowner's signature, provided the control runs the length of the life of the practice as listed in the respective Program Year's Implementation Plan. Signature on the agreement constitutes responsibility for BMP maintenance and continuation.

(b) As a condition for receiving cost share or cost share incentive payments for implementing BMP's, the applicant shall agree to continue and maintain those practices for the minimum life as set forth in the Detailed Implementation Plan, effective the date the BMP's are implemented.

(c) As a condition for receiving cost share payments, the applicant shall agree to submit a soil test sample for analysis and follow the fertilizer application recommendations as close as reasonably and practically possible. Soil testing shall be required a minimum of every two years on all cropland affected by cost share payments. Failure to soil test shall not constitute noncompliance with the cost share agreement.

(d) As a condition for receiving cost share payments for waste management systems, the applicant shall agree to have the waste material analyzed once every year to determine its nutrient content. If the waste is land applied, the applicant shall agree to soil test the area of application and to apply the

waste as close as reasonably and practically possible to recommended rates. When waste is land applied, waste analysis and soil testing shall be conducted annually.

(e) The technical representative of the district shall determine if the practice(s) implemented have been installed according to specifications as defined for the respective program year in the USDA-Natural Resources Conservation Service Technical Guide, Section IV, Raleigh, North Carolina, or according to specifications approved by the division for district BMP's. The district shall be responsible for making an annual spot check of five percent of all the participating farms to ensure proper maintenance. Waste management systems will receive annual status reviews for five years following implementation.

(f) If the technical representative of the district determines that a BMP for which program funds were received has been destroyed or has not been properly maintained, the applicant will be notified that the BMP must be repaired or re-implemented within 30 working days. For vegetative practices, applicants are given one calendar year to re-establish the vegetation. The district may grant a prescribed extension period if it determines compliance can not be met due to circumstances beyond the applicants control.

(g) If the practices are not repaired or reimplemented within the specified time, the applicant shall be required to repay to the division a prorated refund for cost share BMP's as shown in Table 1 and 100 percent of the cost share incentive payments received.

(h) An applicant, who has been found in noncompliance and who does not agree to repair or reimplement the cost shared practices, and a District may jointly request the commission to informally mediate the case. To invoke this method of mediation, both parties must stipulate that the commission mediation is binding.

(i) An applicant shall have a maximum of 180 days to make repayment to the division following the final appeals process.

(j) The inability to properly maintain cost shared practices

or the destruction of such practices through no fault of the applicant shall not be considered as noncompliance with the cost share agreement.

(k) When land under cost share agreement changes owners the new landowner shall be strongly encouraged by the district to continue and maintain practice(s) previously implemented.

.0108 DISTRICT PROGRAM OPERATION

(a) As a component of the annual strategy plan developed by each district, both cropland and animal operations will be prioritized according to pollution potential. Technical and financial assistance will be targeted to facilitate BMP implementation on the identified critical areas.

(b) Priority by the district may be given to implementing systems of BMP's which provide the most cost effective reduction of nonpoint source pollution.

(c) All applicants shall apply to the district and complete the necessary forms in order to receive cost share payments.

(d) The district shall review each application and the feasibility of each application. The district shall review and approve the evaluation and assign priority for cost sharing. All applicants shall be informed of cost share approval or denial.

(e) Upon approval of the application by the district, the applicant and the district shall enter into a cost share agreement. The cost share agreement shall list the practices to be cost shared with state funds. The agreement shall also include the average cost of the recommended practice(s), cost incentive payment of the practice(s), and the expected implementation date of the practice(s). CPO's will be developed and become a part of the cost share agreement.

(f) Upon completion of practice(s) implementation, the technical representative of the district shall notify the district of compliance with design specifications.

(g) Upon notification, the district shall review the CPO. Upon approval, the district shall certify the practices in the CPO and notify the division to make payment to the applicant.

(h) Upon receipt of a quarterly statement from the district, the division shall reimburse to the district the appropriate amount for technical and clerical assistance.

(i) The district shall be responsible for and approve all BMP inspections as set forth in Rule .0107 (e) of this Subchapter to insure proper maintenance and continuation under the cost share agreement.

(j) Districts shall provide quarterly reports on program accomplishments to the commission on October 15, January 15, April 15 and an annual report on July 15.

(k) The district will be responsible for keeping appropriate records dealing with the program.

CHAPTER 7 - COASTAL MANAGEMENT

SUBCHAPTER 7H - STATE GUIDELINES FOR AREAS OF ENVIRONMENTAL CONCERN

SECTION .0300 - OCEAN HAZARD AREAS

.0304 AECs WITHIN OCEAN HAZARD AREAS

The ocean hazard system of AECs contains all of the following areas:

(1) Ocean Erodible Area. This is the area in which there exists a substantial possibility of excessive erosion and significant shoreline fluctuation. The seaward boundary of this area is the mean low water line. The landward extent of this area is determined as follows:

- (a) a distance landward from the first line of stable natural vegetation to the recession line that would be established by multiplying the long-term annual erosion rate times 60, provided that, where there has been no long-term erosion or the rate is less than two feet per year, this distance shall be set at 120 feet landward from the first line of stable natural vegetation. For the purposes of this Rule, the erosion rates shall be the long-term average based on available historical data. The current long-term average erosion rate data for each segment of the North Carolina coast is depicted on maps entitled "Long Term Annual Shoreline Change Rates updated through 1992" and approved by the Coastal Resources Commission on September 27, 1996 (except as such rates may be varied in individual contested cases, declaratory or interpretive rulings). The maps are available without cost from any local permit officer or the Division of Coastal Management; and
- (b) a distance landward from the recession line established in Sub-Item (1)(a) of this Rule to the recession line that would be generated by a storm having a one percent chance of being equaled or exceeded in any given year.

(2) The High Hazard Flood Area. This is the area subject to high velocity waters (including, but not limited to, hurricane wave wash) in a storm having a one percent chance of being equaled or exceeded in any given year, as identified as zone VI-30 on the flood insurance rate maps of the Federal Insurance Administration, U.S. Department of Housing and Urban Development.

(3) Inlet Hazard Area. The inlet hazard areas are natural-hazard areas that are especially vulnerable to erosion, flooding and other adverse effects of sand, wind, and water because of their proximity to dynamic ocean inlets. This area shall extend landward from the mean low water line a distance sufficient to encompass that area within which the inlet will, based on statistical analysis, migrate, and

shall consider such factors as previous inlet territory, structurally weak areas near the inlet (such as an unusually narrow barrier island, an unusually long channel feeding the inlet, or an overwash area), and external influences such as jetties and channelization. The areas identified as suggested Inlet Hazard Areas included in the report entitled **INLET HAZARD AREAS**, The Final Report and Recommendations to the Coastal Resources Commission, 1978, as amended in 1981, by Loie J. Priddy and Rick Carraway are incorporated by reference without future changes are hereby designated as Inlet Hazard Areas except that the Cape Fear Inlet Hazard Area as shown on said map shall not extend northeast of the Baldhead Island marina entrance channel. In all cases, this area shall be an extension of the adjacent ocean erodible area and in no case shall the width of the inlet hazard area be less than the width of the adjacent ocean erodible area. This report is available for inspection at the Department of Environment and Natural Resources, Division of Coastal Management, 2728 Capital Boulevard, Raleigh, North Carolina. Small scaled photo copies are available at no charge.

- (4) Unvegetated Beach Area. Beach areas within the Ocean Hazard Area where no stable natural vegetation is present may be designated as an unvegetated beach area on either a permanent or temporary basis:

- (a) An area appropriate for permanent designation as an unvegetated beach area is a dynamic area that is subject to rapid unpredictable landform change from wind and wave action. The areas in this category shall be designated following detailed studies by the Coastal Resources Commission. These areas shall be designated on maps approved by the Commission and available without cost from any local permit officer or the Division of Coastal Management.
- (b) An area that is suddenly unvegetated as a result of a hurricane or other major storm event may be designated as an unvegetated beach area for a specific period of time. At the expiration of the time specified by the Commission, the area shall return to its pre-storm designation. Areas appropriate for such designation are those in which vegetation has been lost over such a large land area that extrapolation of the vegetation line under the procedure set out in Rule .0305(e) of this Section is inappropriate.

The Commission designates as temporary unvegetated beach areas those oceanfront areas in New Hanover, Pender, Carteret and Onslow Counties in which the vegetation line as shown on

aerial photography dated August 8, 9, and 17, 1996, was destroyed as a result of Hurricane Fran on September 5, 1996. This designation shall continue until such time as stable, natural vegetation has reestablished or until the area is permanently designated as an unvegetated beach area pursuant to Sub-Item 4(a) of this Rule.

CHAPTER 18 ENVIRONMENTAL HEALTH

SUBCHAPTER 18A - SANITATION

SECTION .1900 - SEWAGE TREATMENT AND DISPOSAL SYSTEMS

.1937 PERMITS

(a) Any person owning or controlling a residence, place of business, or place of public assembly containing water-using fixtures connected to a water supply source shall discharge all wastewater directly to an approved wastewater system permitted for that specific use.

(b) An Improvement Permit, Authorization for Wastewater System Construction (Construction Authorization) and Operation Permit, shall be required in accordance with G.S. 130A-336, G.S. 130A-337 and G.S. 130A-338. Rule .1949 of this Section shall be used to determine whether subsequent additions, modifications, or change in the type of facility increase wastewater flow or alter wastewater characteristics.

(c) An application for an Improvement Permit or Construction Authorization, as applicable, shall be submitted to the local health department for each site prior to the construction, location, or relocation of a residence, place of business, or place of public assembly. Applications for systems required to be designed by a professional engineer and applications for industrial process wastewater systems shall meet the provisions of Rule .1938 of this Section.

(d) The application for an Improvement Permit shall contain at least the following information: owner's name, mailing address, and phone number, location of property, plat of property or site plan, description of existing and proposed facilities or structures, number of bedrooms, or number of persons served, or other factors required to determine wastewater system design flow or wastewater characteristics, type of water supply including the location of proposed or

existing well(s), and signature of owner or owner's legal representative. The applicant shall identify property lines and fixed reference points in the field. The applicant shall make the site accessible for an evaluation as required in Rule .1939 of this Section. The applicant shall notify the local health department on the application of the following:

- (1) the property contains previously identified jurisdictional wetlands;
 - (2) wastewater other than sewage will be generated; or
 - (3) the site is subject to approval by other public agencies.
- (e) The application for a Construction Authorization shall contain:

- (1) the information required in Paragraph (d) of this Rule; however, a plat or site plan shall not be required with the application for a Construction Authorization to repair a previously permitted system when the repairs will be accomplished on property owned and controlled by the applicant and for which the property lines are readily identifiable in the field;
- (2) the locations of the proposed facility, appurtenances, and the site for the system showing setbacks to property line(s) or other fixed reference point(s); and
- (3) the proposed system type as specified by the owner or owner's legal representative and that meets the conditions of the Improvement Permit, the provisions of these Rules, and G.S. 130A, Article 11.

(f) An authorized agent of DENR shall issue an Improvement Permit after determining that the site is suitable or provisionally suitable and that a system can be installed so as to meet the provisions of these Rules. The Improvement Permit shall include those items required in G.S. 130A-336(a). An Improvement Permit for which a plat is provided shall be valid without expiration and an Improvement Permit for which a site plan is provided shall be valid for 60 months from the date of issue as provided in G.S. 130A-335(f) and G.S. 130A-336(a). The Improvement Permit is transferable to subsequent owners except as provided in G.S. 130A-335(f) and G.S. 130A-336(a).

(g) The Construction Authorization as provided in G.S. 130A-335(f) and G.S. 130A-336(b) shall be valid for a period equal to the period of validity of the Improvement Permit, not to exceed 60 months. Site modifications required as conditions of an Improvement Permit shall be completed prior to the issuance of a Construction Authorization. The Construction Authorization shall be issued by an authorized agent for the installation of a wastewater system when it is found that the Improvement Permit conditions and rules of this Section are met. The Construction Authorization shall contain conditions regarding system type, system layout, location, and installation requirements. The property owner shall ensure that a Construction Authorization is obtained and is valid prior to the construction or repair of a system. The property owner shall obtain a Construction Authorization

prior to the construction, location, or relocation of a residence, place of business, or place of public assembly. If the installation has not been completed during the period of validity of the Construction Authorization, the information submitted in the application for a Permit or Construction Authorization is found to have been incorrect, falsified or changed, or the site is altered, the Permit or Construction Authorization shall become invalid, and may be suspended or revoked. When a Permit or Construction Authorization has become invalid, expired, suspended, or revoked, the installation shall not be commenced or completed until a new Permit or Construction Authorization has been obtained. Revised Construction Authorizations shall be issued for sites where Improvement Permits are valid without expiration in compliance with G.S. 130A-335(f1).

(h) Prior to the issuance of a Construction Authorization for a wastewater system to serve a condominium or other multiple-ownership development where the system will be under common or joint control, a draft agreement (tri-party) among the local health department, developer, and a proposed non-profit, incorporated owners association shall be submitted to the local health department for approval. Prior to the issuance of an Operation Permit for a system requiring a tri-party agreement, the agreement shall be executed among the local health department, developer, and a non-profit, incorporated owners association and filed with the local register of deeds. The tri-party agreement shall address ownership transfer of ownership, maintenance, repairs, operation, and the necessary funds for the continued satisfactory performance of the wastewater system, including collection, treatment, disposal, and other appurtenances.

(i) No residence, place of business, or place of public assembly shall be occupied nor shall any wastewater system be covered or placed into use until an authorized agent issues an Operation Permit. The Operation Permit shall not be issued or reissued until the authorized agent finds that the system is in compliance with Article 11 of G.S. Chapter 130A, these Rules, and all conditions prescribed by the Improvement Permit, and Construction Authorization. The Operation Permit shall specify the system type in accordance with Table V(a) of Rule .1961 of this Section, and shall include conditions for system performance, operation, maintenance, monitoring and reporting. At the review frequency specified in Rule .1961, Table V(a) of this Section, an authorized agent shall determine whether a system in compliance with the conditions of the Operation Permit, these Rules, and Article 11 of G.S. Chapter 130A. An authorized agent may modify, suspend or revoke the Operation Permit or seek other remedies under Article 2, Chapter 130A, if the system is not in compliance with Article 11 of G.S. Chapter 130A, these Rules, and all conditions imposed by the Operation Permit.

(j) For a Type V or VI system as specified in Rule .1961, Table V(a) of Paragraph (b)(9) of this Section, the Operation Permit shall expire either:

- (1) 60 months after the Operation Permit is issued for any system installed on or after the effective date of

these Rules, or

- (2) 60 months after the effective date of these Rules for any system with a valid Operation Permit issued prior to the effective date of these Rules.

(k) Upon determining that an existing wastewater system including all subsystems and system components in a manufactured home park has a valid Operation Permit and is in compliance with Article 11 of G.S. Chapter 130A, these Rules, and permit conditions, an authorized agent shall issue a written authorization for a manufactured home to be connected to the existing system.

(l) Any person other than the owner or controller of a residence, place of business, or place of public assembly, who engages in the business of constructing, installing, or repairing wastewater systems shall register with the local health department in each county where he operates before constructing, installing, or repairing wastewater systems.

(m) An authorized agent shall prepare a written report with reference to the site and soil conditions required to be evaluated pursuant to this Section. When a permit is denied, the report shall be provided to the applicant. If modifications or alternatives are available, information shall be provided to the applicant. The report shall be signed and dated by an authorized agent of the State.

.1961 MAINTENANCE OF SEWAGE SYSTEMS

(a) Any person owning or controlling the property upon which a ground absorption sewage treatment and disposal system is installed shall be responsible for the following items regarding the maintenance of the system:

- (1) Ground absorption sewage treatment and disposal systems shall be operated and maintained to prevent the following conditions:
 - (A) a discharge of sewage or effluent to the surface of the ground, the surface waters, or directly into ground water at any time; or
 - (B) a back-up of sewage or effluent into the facility, building drains, collection system, or freeboard volume of the tanks; or
 - (C) a free liquid surface within three inches of finished grade over the nitrification trench for two or more observations made not less than 24 hours apart. Observations shall be made greater than 24 hours after a rainfall event.

The system shall be considered to be malfunctioning when it fails to meet one or more of these requirements, either continuously or intermittently, or if it is necessary to remove the contents of the tank(s) at a frequency greater than

once per month in order to satisfy the conditions of (A), (B), or (C) of this Paragraph. Legal remedies may be pursued after an authorized agent has observed and documented one or more of the malfunctioning conditions and has issued a notice of violation.

- (2) Ground absorption sewage treatment and disposal systems shall be checked, and the contents of the septic tank removed, periodically from all compartments, to ensure proper operation of the system. The contents shall be pumped whenever the solids level is found to be more than 1/3 of the liquid depth in any compartment.

(b) System management in accordance with Tables V(a) and V(b) of this Rule shall be required for all systems installed or repaired after July 1, 1992. After July 1, 1992, system management in accordance with Tables V(a) and V(b) shall be required for all existing Type V and Type VI systems.

(c) No Improvement Permit or Construction Authorization shall be issued for Type IV, Type V, or Type VI systems, unless a management entity of the type specified in Table V(b) is specifically authorized, funded, and operational to carry out this management program in the service area where the proposed system is to be located.

(d) A local health department may be the public management entity only for systems classified Type IV, V(a) and V(b) and only when specifically authorized by resolution of the local board of health.

(e) A contract shall be executed between the system owner and a management entity prior to the issuance of an Operation Permit for a system required to be maintained by a public or private management entity, unless the system owner and certified operator are the same. The contract shall include the specific requirements for maintenance and operation, responsibilities of the owner and system operator, provisions that the contract shall be in effect for as long as the system is in use, and other requirements for the continued proper performance of the system. It shall also be a condition of the Operation Permit that subsequent owners of the system execute such a contract.

(f) Inspections of the system shall be performed by a management entity at the frequency specified in Table V(b). The management entity shall report the results of their inspections to the local health department at the specified reporting frequency. However, where inspections indicate the need for system repairs, the management entity shall notify the local health department within 48 hours in order to obtain a Construction Authorization for the repairs.

(g) The management entity shall be responsible for assuring routine maintenance procedures and monitoring requirements in accordance with the conditions of the Operation Permit and the contract.

(h) Sewage systems with multiple components shall be classified by their highest or most complex system type in accordance with Table V to determine local health department and management entity responsibilities.

(i) Sewage systems not identified in this Rule shall be classified by the Division of Environmental Health after consultation with the appropriate commission governing operators of pollution control facilities.

(j) The local health department shall routinely review the performance and operation reports submitted in accordance

with Table V(b) of this Rule and shall perform an on-site inspection of the systems as required in Table V(a).

(k) The certified operator shall hold a valid and current certificate from the appropriate commission, and nothing in this Section shall preclude any requirements for system operators, in accordance with Article 3 of G.S. 90A.

SECTION .0200 - CONTROL MEASURES FOR COMMUNICABLE DISEASES

.0201 CONTROL MEASURES - GENERAL

(a) Except as provided in Rules .0202 - .0209 of this Section, the recommendations and guidelines for testing, diagnosis, treatment, follow-up, and prevention of transmission for each disease and condition specified by the American Public Health Association in its publication, Control of Communicable Diseases Manual shall be the required control measures. Control of Communicable Diseases Manual is hereby incorporated by reference including subsequent amendments and editions. Copies of this publication may be purchased from the American Public Health Association, Publication Sales Department, Post Office Box 753, Waldora, MD 20604 for a cost of twenty-two dollars (\$22.00) each plus five dollars (\$5.00) shipping and handling. A copy is available for inspection in the Communicable Disease Control Section, Cooper Memorial Health Building, 225 N. McDowell Street, Raleigh, North Carolina 27603-1382.

(b) In interpreting and implementing the specific control measures adopted in Paragraph (a) of this Rule, and in devising control measures for outbreaks designated by the State Health Director and for communicable diseases and conditions for which a specific control measure is not provided by this Rule, the following principles shall be used:

- (1) control measures shall be those which can reasonably be expected to decrease the risk of transmission and which are consistent with recent scientific and public health information;
- (2) for diseases or conditions transmitted by the airborne route, the control measures shall require physical isolation for the duration of infectivity;

- (3) for diseases or conditions transmitted by the fecal-oral route, the control measures shall require exclusions from situations in which transmission can be reasonably expected to occur, such as work as a paid or voluntary food handler or attendance or work in a day care center for the duration of infectivity;
- (4) for diseases or conditions transmitted by sexual or the blood-borne route, control measures shall require prohibition of donation of blood, tissue, organs, or semen, needle-sharing, and sexual contact in a manner likely to result in transmission for the duration of infectivity.

(c) Persons with congenital rubella syndrome, tuberculosis, and carriers of *Salmonella typhi* and hepatitis B who change residence to a different local health department jurisdiction shall notify the local health director in both jurisdictions.

(d) Isolation and quarantine orders for communicable diseases and communicable conditions for which control measures have been established shall require compliance with applicable control measures and shall state penalties for failure to comply. These isolation and quarantine orders may be no more restrictive than the applicable control measures.

(e) An individual enrolled in an epidemiologic or clinical study shall not be required to meet the provisions of 15A NCAC 19A .0201 - .0209 which conflict with the study protocol if:

- (1) the protocol is approved for this purpose by the State Health Director because of the scientific and public health value of the study, and
- (2) the individual fully participates in and completes the study.

.0203 CONTROL MEASURES - HEPATITIS B

(a) The following are the control measures for hepatitis B infection. The infected persons shall:

- (1) refrain from sexual intercourse unless condoms are used except when the partner is known to be infected with or immune to hepatitis B;
- (2) not share needles or syringes;
- (3) not donate or sell blood, plasma, platelets, other blood products, semen, ova, tissues, organs, or breast milk;
- (4) if the time of initial infection is known, identify to the local health director all sexual intercourse and

needle partners since the date of infection; and, if the date of initial infection is unknown, identify persons who have been sexual intercourse or needle partners during the previous six months;

- (5) for the duration of the infection, notify future sexual intercourse partners of the infection and refer them to their attending physician or the local health director for control measures;
- (6) be tested six months after diagnosis to determine if they are chronic carriers, annually for two years thereafter if they remain infected, and when necessary to determine appropriate control measures for persons exposed pursuant to Paragraph (b) of this Rule.

(b) The following are the control measures for persons reasonably suspected of being exposed:

- (1) when a person has had sexual intercourse exposure to hepatitis B infection, the person shall be given hepatitis B immune globulin or immune globulin, 0.06 ml/kg, IM as soon as possible but no later than two weeks after the last exposure;
- (2) when a person is a household contact, sexual intercourse or needle sharing contact of a person who has remained infected with hepatitis B for six months or longer, the partner or household contact, if susceptible and at risk of continued exposure, shall be vaccinated against hepatitis B;
- (3) when a health care worker or other person has a needlestick, non-intact skin, or mucous membrane exposure to blood or body fluids that, if the source were infected with the hepatitis B virus, would pose a significant risk of hepatitis B transmission, the following shall apply:

(A) when the source is known, the source person shall be tested for hepatitis B infection, unless already known to be infected;

(B) when the source is infected with hepatitis B and the exposed person is:

- (i) vaccinated, the exposed person shall be tested for anti-HBs. If anti-HBs is less than ten SRU by RIA or negative by EIA, the exposed person shall be given hepatitis B immune globulin, 0.06 ml/kg, IM immediately and a single dose of hepatitis B vaccine within seven days;
- (ii) not vaccinated, the exposed person shall be given hepatitis B immune globulin, 0.06 ml/kg, IM immediately and, if at high risk for future exposure, begin vaccination with hepatitis B vaccine within seven days;

(C) when the source is unknown and the exposed person is:

- (i) vaccinated, no intervention is necessary;
- (ii) not vaccinated, begin vaccination with

hepatitis B vaccine within seven days if at high risk for future exposure.

- (4) infants born to infected mothers shall be given hepatitis B immune globulin, 0.5 ml, IM as soon as maternal infection is known and infant is stabilized; vaccinated against hepatitis B beginning as soon as possible; and tested for HBsAg at 12-15 months of age.

(c) The attending physician shall advise all patients known to be at high risk, including injection drug users, men who have sex with men, hemodialysis patients, and patients who receive frequent transfusions of blood products, that they should be vaccinated against hepatitis B if susceptible.

(d) The following persons shall be tested for hepatitis B infection:

- (1) pregnant women unless known to be infected; and
- (2) donors of blood, plasma, platelets, other blood products, semen, ova, tissues, or organs.

(e) The attending physician of a child who is infected with hepatitis B virus and who may pose a significant risk of transmission in the school or day care setting because of open, oozing wounds or because of behavioral abnormalities such as biting shall notify the local health director. The local health director shall consult with the attending physician and investigate the circumstances.

(f) If the child referred to in Paragraph (e) of this Rule is in school or scheduled for admission and the local health director determines that there may be a significant risk of transmission, the local health director shall consult with an interdisciplinary committee, which shall include school personnel, a medical expert, and the child's parent or guardian to assist in the investigation and determination of risk. The local health director shall notify the superintendent or private school director of the need to appoint such an interdisciplinary committee. If the superintendent or private school director establishes such a committee within three days of notification, the local health director shall consult with this committee. If the superintendent or private school director does not establish such a committee within three days of notification, the local health director shall establish such a committee.

(g) If the child referred to in Paragraph (e) of this Rule is in school or scheduled for admission and the local health director determines, after consultation with the committee, that a significant risk of transmission exists, the local health director shall:

- (1) notify the parents;
- (2) notify the committee;
- (3) assist the committee in determining whether an adjustment can be made to the student's school program to eliminate significant risks of transmission;
- (4) determine if an alternative educational setting is necessary to protect the public health;
- (5) instruct the superintendent or private school director concerning appropriate protective measures to be implemented in the alternative educational

- setting developed by school personnel; and
- (6) consult with the superintendent or private school director to determine which school personnel directly involved with the child need to be notified of the hepatitis B virus infection in order to prevent transmission and ensure that these persons are instructed regarding the necessity for protecting confidentiality.

(h) If the child referred to in Paragraph (e) of this Rule is in day care and the local health director determines that there is a significant risk of transmission, the local health director shall notify the parents that the child must be placed in an alternate child care setting that eliminates the significant risk of transmission.

RULES REVIEW COMMISSION MEETING DATES

November 20, 1997
December 18, 1997

January 15, 1998
February 19, 1998

The NC Rules Review Commission is considering adopting the following rule:

**RULE #10
FILING RECEIPTS**

- (a) When an agency files a permanent rule for which there is a temporary rule it shall obtain a dated and signed receipt from the RRC.
- (b) When an agency files any other permanent rule, it may obtain a dated and signed receipt from the RRC.
- (c) If the agency fails to obtain a receipt, the date of filing shall be considered the next 20th day of the month.

Written comment may be submitted to:

Joseph J. DeLuca, Jr., Staff Director
NC Rules Review Commission
1307 Glenwood Ave. #159
Raleigh, NC 27605

The deadline for submitting such comment is Monday, December 15, 1997.

A public hearing on the above rule is tentatively scheduled at the conclusion of the November 20, 1997 Rules Review Commission meeting, convening at 10:00 a.m.

Agency staff comment:

According to N.C.G.S. 150B-21.1(d)(5) a temporary rule expires 270 days after it was published in the North Carolina Register (NCR) unless the proposed permanent rule has been filed with the RRC. Recently some temporary rules have expired for failure to file the permanent rule on time. (Note that expiration of the temporary rule does not extinguish the permanent rulemaking. An agency may continue with its permanent rulemaking even though its temporary rule may have expired.) We have not normally noted the filing date with us of any rules; we simply accumulate them until the 20th of the month and then prepare the log for the following month.

Staff has proposed that the commission adopt a rule requiring agencies to obtain a filing receipt when filing a permanent rule replacing a temporary rule and permitting them to obtain a receipt for any other rule filing. Please note that there has never been an issue of whether or not a rule was filed with us or when precisely it was filed. We would like to keep it that way. To that end we have proposed the above rule.

GEORGIA B. WARREN,
Petitioner,

v.

N.C. DEPARTMENT OF TRANSPORTATION, DIVISION OF MOTOR VEHICLES ENFORCEMENT SECTION,

96 OSP 0784

This matter was heard before Administrative Law Judge Meg Scott Phipps in Raleigh, North Carolina on July 31, August 1, 11 and 12, 1997. Petitioner, Georgia Warren, was present and represented herself. Petitioners, Tommie R. Jones, Samuel W. Winstead, Timothy C. Sturges, Michael J. Boone, and Ronnie Batchelor, were present and represented by Ms. Janet I. Pueschel, Attorney at Law. Respondent was present and represented by Mr. C. Norman Young, Assistant Attorney General with the N. C. Department of Justice.

MOTION TO RECONSIDER MOTION TO DISMISS

At the call of the case and at the end of the presentation of evidence, Respondent renewed its Motion to Reconsider the Denial of Respondent's Motion to Dismiss for lack of jurisdiction for failure to timely file the petitions. This motion had previously been denied by Chief Judge Julian Mann on June 11, 1997 who, after reviewing the exhibits and the pleadings, did affirm former Administrative Law Judge Thomas R. West's Order Denying Respondent's Motion to Dismiss on August 7, 1996. After hearing the arguments of counsel and reviewing the exhibits, the undersigned concluded that both Judge West's and Chief Judge Mann's Orders should be affirmed. Therefore, the Respondent's Motion to Reconsider is **DENIED.**^{**} See also, 25 NCAC 1J .0506 (employee has the option to pursue the internal grievance procedure if discrimination is alleged);

BURDEN OF PROOF

The parties stipulated that the Petitioners had the burden of proof by a preponderance of the evidence.

ISSUE

Whether the reallocation upward of a non-vacant position with an increase in pay above the minimum constituted a denial of promotion by the Respondent due to political discrimination in violation of G.S. §126-36 and whether the Respondent failed to post a vacancy for a Vehicle Enforcement Officer II as provided in G.S. §126-7.1.

Based upon the pleadings, the testimony of witnesses, and the exhibits, the undersigned makes the following:

^{**}For the official record, evidence on the Petitioners' appeal process was taken during the contested case hearing.

FINDINGS OF FACT

1. The Petitioners bring this contested case to challenge the promotion of Russell Taylor and the upgrading of his position as a Vehicle Enforcement Officer I (VEO I) to a VEO II Sergeant's position and for the failure to post the position as a vacancy. All of the Petitioners are VEO Is at the Halifax Weigh Station.

The VEO II Position

8. Lt. Kenneth Meeks and others testified that Position #71316, which is at issue in this case, was originally a VEO II position. Sometime in 1993 when the position became vacant, an understanding existed among the VEO Is to allow the

senior VEO I to apply for it. Even two out-of-district applicants withdrew their names from consideration which left only the VEO I with the most seniority. Rather than fill the position with the senior VEO I employee, position #71316 was downgraded to a VEO I. Lt. Meeks testified that he needed more VEO IIs or Sergeants at the time and he had recommended that the senior officer be hired.

9. Russell Taylor was hired into position #71316 in February 1994. While Russell Taylor was in the VEO I position, the decision was made to upgrade it to a VEO II position in February 1996. The VEO II has the rank of Sergeant and has supervisory duties over the VEO Is. Generally, positions are reallocated if the managers show there is a need for the position or the person in the position is doing the work of that type of position. On the PD-118 Position Action Form, the explanation was given that the position was being reallocated up "due to change in job duties and responsibilities based on workload." In this case, Russell Taylor was not doing the VEO II Sergeant duties although other VEO Is were and there was no evidence that Taylor's workload and duties had increased. There was testimony from Lt. Meeks that his staff was overworked; however, there was no evidence that any specific request had been made for a Sergeant's position by DMV Enforcement management.

Russell Taylor and Position #71316

10. As stated, position #71316 was a VEO I position in the Fall of 1993. Russell Taylor submitted a DOT application in September 1993. He was 24 years old. Prior to submitting his application, he had worked for: 1) Coastal Lumber Company for six months, 2) Mike Neal & Associates for one year appraising timber, 3) Carroll Foods for three months, and 4) DOT in highway maintenance for four to five months. Mr. Taylor had received an A.S. degree from Wayne Community College in Forestry in 1991. In January 1994, Mr. Taylor was notified that he was the successful applicant for the position. Although there was evidence contending that Mr. Taylor was not qualified for the VEO I position when hired, this is not at issue in this contested case.

11. When Officer Taylor began working at the Halifax Weigh Station in February 1994, he was not a certified law enforcement officer. His starting salary as a trainee was approximately \$19,856.00. He finally received his BLET training and was issued a probationary certification by the Criminal Justice and Education Training Standards Commission in August 1994. Pending certification, Officer Taylor could not wear a uniform and could not "go on the road" or issue citations. Primarily he stayed in the office and did paperwork. This was not an uncommon practice for people who were hired but not previously certified. In February 1995, Petitioner was placed on permanent status as a state employee. His salary increased from \$19,586.00 to \$21,906.00.

12. Officer Taylor applied for a Law Enforcement Officer I (LEO I) or Inspector position during the latter part of 1995. The LEO I position is considered a promotion by VEO Is and IIs. Taylor was notified in early 1996 that he did not get the position. He did not qualify for the position due to a lack of education and experience.

13. Thomas "Sonny Boy" Joyner is the great uncle of Russell Taylor. Mr. Joyner is a life long active Democrat. He was chairman of the Northhampton County Democratic Party for 45 years and has contributed to Governor James B. Hunt's campaigns. He has referred people for private and public sector jobs over the years. He has talked with Linda McDougal in the Governor's Personnel Office about recommendations for people. Officer Taylor testified that he spoke to Mr. Joyner about the VEO I position and asked for his help. He also spoke to Mr. Joyner when he applied for the LEO I position. Mr. Joyner testified that he remembered recommending Russell Taylor for the LEO I position. When Taylor did not get the Inspector position, Mr. Joyner called Mr. Robert S. ("Sid") Boyette, Personnel Director for DMV, and told him that "if he had anything that he could put him in, he would appreciate it." He did not ask specifically for the VEO II Sergeant's position.

14. Sid Boyette became the Special Assistant to DMV's Personnel Director in April 1993. In August 1993, he became the Director of Personnel. Mr. Boyette testified that in 1994, DMV Director Alexander Killians, Col. A. L. Felton, and Lt. Col. Reggie Smith made the hiring decisions. He stated that the paperwork usually came from Col. Felton or Lt. Col. Smith. Mr. Boyette testified that he has never met Russell Taylor; however, he did state that Sonny Boy Joyner had been a friend of his for thirty years.*** The recommendation to hire Taylor came from Mr. Joyner; however, he stated that he himself did not make the recommendation to hire Taylor.

*** Although not a finding of fact substantial enough to support a conclusion of law, it is interesting to note that Sid Boyette testified that he lived on Gov. Hunt Road in Lucama, North Carolina.

15. As stated, Sonny Boy Joyner did call Sid Boyette to recommend Taylor for the LEO I position. When Taylor was not hired due to a lack of experience, Mr. Joyner called Boyette. It was clear to Boyette that Mr. Joyner was "hurt and embarrassed." Mr. Boyette told Mr. Joyner that he would look into it. He contacted Col. Felton. Mr. Boyette testified that he recommended that Taylor's position be upgraded because there was no vacant position. In Boyette's opinion, Taylor was minimally qualified for the VEO II position. Mr. Taylor believed he was minimally qualified. Most of the other witnesses did not. Because Taylor had 24 months with DMV, he was given 6 months credit for his degree in Forestry so that he could meet the 30 month minimum requirement for the VEO II position. Mr. Boyette testified that if it "is justified, you can get around a promotion if its done through a reallocation."

16. Col. A. L. Felton, Director of DMV Enforcement testified that he did not make any hiring decisions; further, he stated that all hiring decisions came from DMV Commissioner Alexander Killians. Col. Felton also testified that to his knowledge the only requirement for a VEO I was to be BLET (Basic Law Enforcement Training) certified and that Mr. Taylor could not have been hired without it. Later in his testimony he acknowledged that experience in regulatory or investigatory work was a requirement. He was told by Lt. Col. Reggie Smith that Taylor had wildlife experience. He also stated that he did not have the authority to set salary and that function was handled by Lt. Col. Smith. Col. Felton made it clear that he did not promote Russell Taylor to VEO II but that the position was upgraded. He stated that this kind of thing had been done before but that he personally had never done it. Col. Felton stated that he disagreed with the reallocation.

17. Lt. Col. Reggie Smith was the Deputy Director under Col. Felton. In his position, he was responsible for personnel matters and acted as a liaison between Mr. Boyette's office and Col. Felton. He stated that he was the "paper shuffler." Lt. Col. Smith testified that professionally he did not know why the VEO I position was upgraded to a VEO II. He stated that personally, he had an opinion. He believes that it was done because Col. Felton was instructed to do it. He stated that "[W]e were told by Boyette to upgrade it." He further testified that normally when a position is upgraded, it is vacant. He was strongly against the upgrade and refused to sign the PD-105 (a personnel form) on it. Lt. Col. Smith did not believe that Taylor was qualified for the VEO II position.

18. Linda McDougal has been the Director of Personnel for the Governor's Office since February 1996. She testified that anyone who calls her office for a Governor's referral receives one and anyone can call to make a recommendation on someone else's behalf. The office does not make recommendations but people are advised that they have to be qualified for the position for which they have applied. Her office does not have time to review qualifications. Her staff takes the name, the address, and the position and then sends a referral form to the specific agency. Her staff does not say: "You have to hire this person." They also do not review campaign contributions prior to making referrals. She testified that she has never had that information. Ms. McDougal further testified that many times, agency management does not know who made the recommendation to the Governor's Office. Further, she noted misuse of the referral system by some agency management. When they did not want to hire internally, management would tell an employee that they had to hire a Governor's referral. Ms. McDougal testified that she spends time counseling management when she hears that an applicant has been advised that a Governor's referral is necessary to get a job.

19. Ms. McDougal testified about Russell Taylor's referral file maintained at her office. In 1993, Taylor was initially interested in the State Highway Patrol. He sent in an application. An acknowledgment letter was sent out and a referral form was sent to the Highway Patrol. In August 1994, he was referred for a VEO I position. In January 1996, there was a general referral for all positions in all divisions. Ms. McDougal was not aware of Russell Taylor until the *News and Observer* newspaper wrote a story on political patronage. A reporter called her and Sonny Boy Joyner called her. She testified that she knows Sonny Boy Joyner and her staff have made referrals for him.

20. Lt. Col. Smith testified that it was a violation of Promotion Policy V.D. to reallocate Taylor to the VEO II position. He also testified that in 1993 or early 1994, a new requirement was put in place that all applicants had to be BLET certified prior to employment. Mr. Taylor had not met this requirement.

21. Col. A.L. Felton sent Capt. Frank Arrant a letter promoting Russell Taylor to Sergeant. Taylor's VEO I position had been reallocated to VEO II on February 10, 1996. This was forwarded to Lt. Meeks over the fax machine to the Halifax Weigh Station. Russell Taylor was not aware of the promotion until he received a letter dated March 12, 1996. The promotion was effective February 10, 1996. He was not aware he had received a pay increase until he received his next paycheck.

22. In the VEO II position, Officer Taylor made \$26,500. This was a 35% increase from what Taylor started out with in February 1994 which was \$19,586.00. It was a 20% increase from his salary in February 1995 when he obtained permanent status. This new salary was approximately what Officer Taylor would have made in the LEO I position had he been hired. The

maximum pay increase for a promotion is usually 10%. The Personnel Action Form shows that he received a 9.3595% increase in pay over the minimum for the position. However, the VEO II position was budgeted for \$22,344.00. The requested salary by Col. Felton was \$24,578.00. On the draft PD-118 Form, the budgeted salary position of \$24,578.00 was marked through and \$26,500 was handwritten below it. The funds available in reserve was also marked through and increased. Mr. Boyette testified that normally the supervisors make recommendations as to salary. In this case, he did not know who made the salary recommendation for Russell Taylor's VEO II position. He said it "could have been me. I'll take the responsibility for it."

23. Lt. Col. Reggie Smith testified that prior to DMV Commissioner Janice Faulkner assuming her position, 92% of the vacant positions were filled from people outside of the DMV Enforcement Section. He testified that when a vacant position became available, he was instructed to do the paperwork. He said that the DMV Enforcement Section influenced only about 5-8% of the positions.

Aftermath of the Decision

24. The effect of the decision to upgrade Mr. Taylor's position and promote him with the position was devastating to the morale of the employees at the Halifax Weigh Station. The news had come to the Station over the fax machine. The letter to Lt. Meeks was dated March 12, 1996 but the effective date of the promotion was one month earlier. Even Mr. Taylor was not aware of it. All of a sudden, he became the supervisor to 22 employees when he had only been doing the full duties of a VEO I for a little over a year. The VEO Is were angry and the desire to work hard had diminished. There was testimony that "production" was off, that officers did their jobs but no more. Respect for the Division was lost. Desire and motivation were diminished. Most believed it was a political decision and a "reward" to Taylor for not getting the LEO I position.

25. Most of the officers including the Petitioners spoke with Lt. Meeks who's office was located at the Halifax Weigh Station. He advised them that there was nothing he could do. Some chose to fight the decision and others chose not to "rock the boat." Whether factually based or not, some feared a transfer if they fought the decision. Phone calls were made to Lt. Col. Reggie Smith and to DOT's Personnel Department. The Petitioners submitted written grievances with Lt. Meeks who forwarded them through his chain of command to Capt. Arrant as well as the copies. The Petitioners received no answer.

26. The reverberations from the decision were bad enough that Col. Felton and Capt. Frank Arrant made a special trip to the Halifax Weigh Station on April 15, 1996. All staff were required to attend the meeting which was held outside the station; however Russell Taylor was sent on a false trip so that he would not be there. Approximately thirty people were present. Col. Felton told the officers that he was there to explain. He stated that he was against the decision but there was nothing anyone could do about it. Col. Felton told them that the change was done for Russell Taylor, that everyone should leave the matter alone, and that it was a "done deal." He further told them that the meeting was the only answer they were going to receive about their grievance.

27. After the meeting with the officers, the Petitioners received a letter dated April 16, 1996 from Sid Boyette that they had no appealable grievance because the position had been reallocated; there was no vacancy; and no adverse action had been taken against them. The Petitioners believed they were in Step I of the internal grievance procedure; therefore they did not understand why they had received a letter from the Director of Personnel rather than their supervisors. After Petitioners' attorney wrote two letters to the Secretary of the Department of Transportation, he responded on June 3, 1996 advising them that the matter was administratively closed.

Training and Experience Requirements for the VEO II Position

28. The VEO II position requires an applicant who has graduated from high school **and** has 30 months of experience as a Vehicle Enforcement Officer **or** the applicant must have three years of experience in general investigation, regulatory, or terminal or business operations of motor freight or passenger carriers (emphasis added). Also, as generally stated in most State Personnel job descriptions, the applicant must have an equivalent combination of education and experience.

29. Russell Taylor did not meet these minimum qualifications. On the Personnel Action Form, the Budget Comments section states: "With Mr. Taylor's 2 yrs. experience with the Dept. and his degree along with approx. 1 yr. 4 months previous experience working with the public, we feel he qualifies for 9.3595% over the min. He is doing an excellent job in his position and can now function at this level." For most of Mr. Taylor's first year on the job, he was not certified to do the job, was not in uniform, and was not on the road. He had no law enforcement experience. In fact, on Mr. Taylor's Personnel Action Form dated February 1, 1995, the comments stated that he "has been on trainee progression rate and has now obtained the necessary one year's experience to go to min." As shown above, Mr. Taylor's previous experience was in short term jobs and did not

include general investigation, regulatory, or terminal or business operations of motor freight or passenger carriers.

DOT's Internal Placement and Promotion Policy

30. General Order No. 11, which is DOT's Placement and Promotion Policy, provides in Section V. D. that "[a]ll promotions will be made from within the Section by internal postings."

Remedial Action by Commissioner Janice Faulkner

31. After Janice Faulkner became Commissioner of the Division of Motor Vehicles in 1997, Russell Taylor was removed from the reallocated VEO II position and became a VEO I effective May 15, 1997. Lt. Col. Smith had talked with Mr. Taylor about voluntarily stepping down. He agreed as long as he could keep his salary. The VEO II position was posted on June 10, 1997 as a vacancy and all the Petitioners applied and were interviewed. At the time of the hearing, no decision had been made. ****

32. Commissioner Faulkner has implemented a new hiring procedure. Candidates for vacant positions are interviewed by a team approach. Interviewed candidates are asked the same questions. Applicants who are not BLET certified are not interviewed. One member of the interview team is a DMV captain. None of the panel is a supervisor or coworker of the applicant. The applicants are ranked according to qualifications and experience. Three recommendations are sent in to Lt. Col. Reggie Smith. After discussing the recommended candidates with the Colonel (now Colonel David Richards), a selection is made. The name of the selected candidate goes to the DMV Commissioner and then forwarded to someone in the Department of Transportation. A new manual is in the process of being printed and the eight District Captains have been informed of the new procedure. As of the date of the hearing, fifteen people have been hired using this procedure. All persons hired were recommended by an interview panel.

Based on the foregoing Findings of Fact, the undersigned makes the following:

CONCLUSIONS OF LAW

1. The Office of Administrative Hearings has personal and subject matter jurisdiction to hear this contested case.
2. G.S. §126-7.1 requires that all vacancies for which an agency openly recruits should be posted. The Petitioners have not shown by the greater weight of the evidence that a vacancy existed for which a posting would have been required.
3. Although the Respondent's contend that Position #71316 was reallocated and it just so happened that Russell Taylor was in the position when reallocated, the substantial evidence shows that the reallocation was done for Mr. Taylor's personal benefit as a promotion and to satisfy the concern of a political supporter of the Governor. The word "promotion" is defined in 25 NCAC 1D .0301 as a change in status upward resulting from reassignment to a position with a higher pay grade. The important criteria are greater status and a higher standing in relation to peers after a reclassification. When this occurs, the individual has been promoted. *Edwards v. Univ. of N.C.*, 107 N.C.App. 606, 421 S.E.2d 383, cert. denied, 333 N.C. 167, 424 S.E.2d 909 (1992)(no vacant position but agency reorganization created a promotion for a white male with less seniority and less training over a black female who remained in her non-rank position with no change in title or duties; Court held that State Personnel Commission had jurisdiction over discrimination claim). Further, Mr. Taylor received a pay increase and the title of Sergeant. Therefore, it is concluded that Mr. Taylor was promoted. Because the action taken in this case resulted in the promotion of Taylor, the Office of Administrative Hearings and the State Personnel Commission have jurisdiction over the subject matter in this contested case. *Edwards, supra* at 610.
4. To be promoted to another position, an employee must meet the minimum qualifications as set forth in the class specification. 25 NCAC 1D .0305. Russell Taylor did not meet the minimum qualifications. Further, any salary increase for the promotion must be to the new minimum rate of the grade to which promoted or by 5%, whichever is larger. 25 NCAC 1D .0308(1)(b).

**** As of the date of this decision, the undersigned was advised by counsel that one of the Petitioners had been selected for the VEO II position.

5. G.S. §126-36 provides that any State employee who has reason to believe that promotion was denied him based upon an unlawful State employment practice constituting discrimination based upon his political affiliation shall have the right to appeal to the State Personnel Commission. G.S. §126-34.1(a)(2). By showing that Mr. Taylor was promoted to a VEO II position with significantly less experience and training and that his great uncle was closely affiliated politically with the Department of Transportation, the Petitioners met the burden of establishing a *prima facie* case of political discrimination. The Respondent did not have a legitimate non-discriminatory reason for reallocating Position #71316 and promoting Mr. Taylor with the position. Petitioners were denied the same promotion which Mr. Taylor received because they did not have his political association. Therefore, the promotion was an adverse departmental action which discriminated against the Petitioners. *Compare, Batten v. N.C. Dept. of Correction*, 326 N.C. 338, 345, 347, 389 S.E.2d 35 (1990)(agency action deemed "disciplinary" and Petitioner's case was considered "contested") *overruled on other grounds, Empire Power Co. v. N.C. Dept. of EHNR*, 337 N.C. 569, 447 S.E.2d 168 (1994).

6. "Political affiliation" is not defined in the State Personnel Act. Therefore, the phrase must be given its common and ordinary meaning. *Edwards, supra* at 609. The Act does not say "political party affiliation." To assist in determining the ordinary meaning, courts often use the dictionary. *Edwards, supra* at 609. In *Black's Law Dictionary* (5th Ed. 1979), the word "political" includes the definition: "having to do with ...action of individuals, parties, or interests that seek to control appointment or action of those who manage affairs of a state." Also in *Black's Law Dictionary*, "affiliation" means the act or condition of being associated with another person and it means "less than membership in an organization." For this reason, it is concluded that the term "political affiliation" in G.S. §126-36 does not require that the Petitioners be of different political parties from those in decision-making positions in order to be discriminated against. In this case, the political discrimination occurred as a result of Russell Taylor's relation to Mr. Sonny Boy Joyner and Mr. Joyner's political affiliation with the present administration and specifically, his political clout with the Personnel Department in the Department of Transportation. The Petitioners did not have this political affiliation with anyone in the Hunt administration or the Department of Transportation.

7. Even if the State Personnel Commission were to conclude that no promotion occurred, the Respondent still failed to follow Personnel Commission rules regarding reallocation. 25 NCAC 1F .0303(a) defines reallocation of an established position as the "assignment of a position from one class to another as the result of a change in assigned duties and responsibilities." No evidence was presented of a change in duties or responsibilities for Mr. Taylor.

8. When Russell Taylor's position was reallocated upward, 25 NCAC 1D .0607 was also violated. This regulation provides that when an employee's position is reallocated, the employee must "ordinarily possess the minimum education and experience requirements, or their equivalent, as set forth in the class specification." Although the word "ordinarily" is used, this sentence must be read in conjunction with the second sentence of the rule: "[i]f a classification audit has verified that duties, skills, and knowledges are being demonstrated at a higher level..." the employee may be promoted by waiver of the stated minimum requirements. Mr. Taylor did not meet the minimum requirements nor was a classification audit conducted.

9. 25 NCAC 1D .0605(a), 25 NCAC 1F .0301(b), and 25 NCAC 1F .0307 all provide that Form PD-118s are to be submitted to the Office of State Personnel 30 days prior to the proposed effective date of the reallocation in order that adequate time is available for study and processing of the request. This was not done in this case. The PD-118 was prepared on February 7, 1996. Although Mr. Taylor was notified on March 12, 1996, the effective date of the reallocation was February 10, 1996.

10. Justification for an upgrade of a particular position must be demonstrated by the attachment of a Form PD-102 to the Form PD-118. 25 NCAC 1F .0402(b). This form is to be prepared by the employee in the position. 25 NCAC 1F .0402(c). The evidence shows only that a job description for a VEO II was attached without any justification by data or analysis for the upgrade of the position that Mr. Taylor was in. 25 NCAC 1D .0608. Further, Mr. Taylor was not even aware of the reallocation until he received the letter notifying him of the change in March, 1996. Respondent failed to follow these Personnel Commission rules.

11. There was no evidence to support a conclusion that the Governor's Personnel Office did anything improper to influence the decision to promote Russell Taylor. Also, it is not illegal for the public to recommend a person for a particular position even if the person making the recommendation has political clout. The problem occurred when the Respondent agency abused its discretion by acting on that recommendation in violation of the State Personnel Act, Chapter 126 of the N.C. General Statutes, and State Personnel Commission procedures. *Compare, Joyce v. Winston-Salem State University*, 91 N.C.App. 153, 370 S.E.2d 866, cert. denied, 323 N.C. 476, 373 S.E.2d 862 (1988)(abuse of discretion and improper hiring procedure). Policies and procedures made pursuant to the State Personnel Commission's authority in G.S. §126-4 have the effect of law

CONTESTED CASE DECISIONS

and, to serve the purpose of the State Personnel Act, must be enforced. *N.C. Dept. of Justice v. Eaker*, 90 N.C.App. 30, 38-39, 367 S.E.2d 392, *cert. denied*, 322 N.C. 836, 371 S.E.2d 279 (1988).

12. The Respondent's reallocation of Position #71316 was an obvious attempt to promote an unqualified candidate without making the position available to more qualified applicants such as the Petitioners. To do so was arbitrary, capricious, and erroneous. Further, the Respondent failed to use proper procedure and failed to act as required by law and rule. By doing so, the Respondent has substantially prejudiced the Petitioners' rights. **G.S. §150B-23(a).**

Based upon the foregoing Findings of Fact and Conclusions of Law, the undersigned makes the following:

RECOMMENDED DECISION

It is recommended that the Petitioners' be reimbursed for their attorney fees and costs if any. The State Personnel Commission has the authority to issue binding corrective orders or take other appropriate action concerning promotions and other issues as the Commission deems justified. **G.S. §126-4(9).** However, no other remedy may be necessary. Commissioner Janice Faulkner has provided the parties with a remedy that exceeds what the undersigned would have had the authority to recommend by demoting Russell Taylor and posting the VEO II Sergeant's position as a vacancy. She also has institutionalized a new hiring procedure which should minimize political patronage abuse within the DMV Enforcement Section of the Department of Transportation.

ORDER

It is hereby ordered that the agency serve a copy of the final decision on the Office of Administrative Hearings, PO Drawer 27447, Raleigh, NC 27611-7447, in accordance with G.S. §150B-36(b).

NOTICE

The agency making the final decision in this contested case is required to give each party an opportunity to file exceptions to this recommended decision and to present written arguments to those in the agency who will make the final decision. G.S. §150B-36(a). The agency is required by G.S. §150B-36(b) to serve a copy of the final decision on all parties and to furnish a copy to the parties' attorney of record. The agency that will make the final decision in this contested case is the State Personnel Commission.

This the 13th day of November, 1997.

Meg Scott Phipps
Administrative Law Judge

STATE OF NORTH CAROLINA

COUNTY OF WAKE

IN THE OFFICE OF
ADMINISTRATIVE HEARINGS
97 OSP 0469

WILLIAM G. JORDAN

Petitioner,

v.

NORTH CAROLINA DEPARTMENT OF CORRECTION

Respondent.

RECOMMENDED DECISION

This matter came on for hearing before the undersigned administrative law judge on October 20, 1997, in Raleigh, North Carolina.

The Petitioner was represented by James P. West. Assistant Attorney General Sharon Wilson and Associate Attorney General Buren R. Shields, III represented the Respondent.

ISSUE

Whether the Respondent's termination of Petitioner's employment as a Maintenance Mechanic V should be affirmed or reversed.

FINDINGS OF FACT

1. Petitioner, a career employee subject to the State Personnel Act, was terminated by Respondent effective January 29, 1997, from his position as Maintenance Mechanic V.

2. Respondent's letter of dismissal to Petitioner contained the following paragraph:

Specifically, an investigation has revealed that on September 16, 1996, at approximately 2:30 P.M. inmate Frank Hodges observed you sitting in the canteen dining room reading a newspaper, while inmate Janice McMillan, who is assigned to the Randall Building Canteen was sweeping the floor. Inmate Hodges stated that he observed you follow inmate McMillan as she went into the janitor's closet adjacent to the dining room area and observed you touch inmate McMillan on her breast and buttocks.

3. Petitioner followed the internal grievance procedure of the Respondent and timely filed a petition for a contested case hearing with the Office of Administrative Hearings. He has consistently denied any inappropriate conduct with inmate Janice McMillan.

4. On September 16, 1996, Frank Hodge was a convicted felon confined within the prison system. He was under the Petitioner's supervision and harbored resentment against him.

5. Frank Hodge ignored a subpoena served upon him ordering his appearance to testify as a witness for the Respondent at the hearing on this matter. Respondent did not request a continuance, but proceeded to attempt to prove its case by offering hearsay statements allegedly made by Hodge and others. These statements were excluded.

6. Gene Stephenson has worked at Dillon Supply Company in Raleigh since November of 1958. To the best of his recollection, Petitioner was with him at Dillon Supply on September 16, 1996, from 1:30 p.m. until after 2:45 p.m. Stephenson appeared to be a very credible witness.

7. Petitioner was out of work from January 29, 1997, until early April when he accepted a position with Sears. Petitioner earned a total of \$7,884.80 in regular pay and \$581.62 in overtime pay from his employment at Sears. He quit this job in mid-July because of working equipment and conditions. He has received no unemployment benefits.

8. On August 18, 1997, Petitioner was employed by North Carolina State University as a Maintenance Mechanic V at the same salary he was making with Respondent. Petitioner does not want to return to work for Respondent.

9. Since January 29, 1997, Petitioner has spent approximately \$7,000 for attorney's fees while contesting his dismissal.

10. Respondent's effort to introduce the results of polygraph examinations conducted during the course of its investigation was denied. Without polygraph results, the Director of Prisons Lynn Phillips would not have recommended that Petitioner be terminated.

11. Janice McMillan could not be located by Petitioner to be subpoenaed. In prior statements, Ms. McMillan denied that Petitioner ever touched her inappropriately.

CONCLUSIONS OF LAW

1. The Office of Administrative Hearings has jurisdiction over the parties and the subject matter of this action.

2. The Respondent has failed to prove by substantial evidence that it had just cause to terminate Petitioner's employment. Hearsay statements by convicted felons do not constitute just cause to discharge a career state employee.

3. Polygraph evidence is considered inherently unreliable by our courts and is not admissible in administrative hearings of this nature.

RECOMMENDED DECISION

That the Petitioner be awarded back pay, attorney's fees and any other benefits to which he would have been entitled, and that all documents relating to the allegations at issue in this action be removed and otherwise purged from Petitioner's personnel file.

NOTICE

The final decision in this contested case shall be made by the State Personnel Commission. Each party has the right to file exceptions to the recommended decision and to present written arguments on the decision to this agency. This the 31st day of October, 1997.

Senior Administrative Law Judge

The North Carolina Administrative Code (NCAC) has four major subdivisions of rules. Two of these, titles and chapters, are mandatory. The major subdivision of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. The other two, subchapters and sections are optional subdivisions to be used by agencies when appropriate.
